DETAILED ACTION

1. Applicants' preliminary amendments, received 1/24/2002, paper # 10 is acknowledged.

Claims 1-22 were canceled without prejudice. Claims 23-25 were amended. New claims 31-42 were added.

2. Currently claims 23-42 are pending.

In view of amendment of claims 23-25 and addition of new claims 31-42 a new election of species is set forth below.

New Election

3. Claims 23-24 and 26-27 will be examined as part of elected group III.

This application contains claims directed to the following patentably distinct species of the claimed invention: The species is recited in claims 25, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, and 40.

Applicants are required under 35 U.S.C. 121 to elect a single disclosed species (i.e. elect one of the claims from the group of claims recited above) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 23, 24, 26, 27, 41 and 42 are generic.

The species are shown to be distinct because they are drawn to a plurality of disclosed patentably distinct compositions comprising structurally and functionally distinct molecules.

Applicants are advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 1645

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khatol Shahnian-Shah whose telephone number is (703) 308-8896. The examiner can normally be reached on 7:30 AM - 4 PM from Monday through Friday.
